1. Description of operations

The Corporation's operations consist of the exploration of mineral properties, directly or through joint ventures. It is in the process of determining whether its properties contain economically recoverable reserves. Recovery of deferred exploration costs and mining properties depend on the existence of economically recoverable ore reserves, the Corporation's ability to obtain financing for its operations and future profitable commercial production.

2. Summary of significant accounting policies and changes to accounting policies

(a) Summary of significant accounting policies

The financial information as at September 30, 2006 is not audited. However, in the opinion of the management, all adjustments necessary to present fairly the results of these periods have been included. The adjustments made were of a normal recurring nature. Interim results may not necessarily be indicative of results anticipated for the year.

These interim financial statements are prepared in accordance with generally accepted accounting principles in Canada for the presentation of interim financial information. All disclosures required for annual financial statements have not been included in the financial statements and therefore should be read in conjunction with the company’s most recent annual financial statements. These financial statements use the same accounting policies and methods used in the preparation of the company’s most recent annual financial statements.

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The interim financial statements have, in management’s opinion, been properly prepared using careful judgement within reasonable limits of materiality and within the framework of the accounting policies summarized in the most recent annual audited financial statements.

(b) Comparative financial statements

The comparative financial statements include the accounts of its wholly-owned subsidiary Blue Note Metals Inc., which was spun-off on November 10, 2005 (see note 4).

Certain comparative figures have been reclassified to conform to the presentation adopted in the current period.

2. Summary of significant accounting policies and changes to accounting policies (continued)

(c) Changes to accounting policies

Non-monetary transactions: The CICA reissued section 3830 of the CICA Handbook section as section 3831, *Non-Monetary Transactions*, which establishes standards for the measurement and disclosure of non-monetary transactions. It also includes criteria for defining 'commercial substance' that replace the criteria for defining 'culmination of the earnings process' in the former section. Adopting this section on January 1, 2006 did not have any effect on our financial statements.

3. Loan receivable from former subsidiary company

This loan bears interest at the company's bank prime rate plus 1.375% and has no specific repayment terms (see note 12).

4. Assets disposed in 2005

Pursuant to a Plan of Arrangement approved by the shareholders of Blue Note Metals Inc. ("Blue Note") and the Corporation on May 25, 2005, Forest Gate has separated from Blue Note, its wholly-owned subsidiary, in view of a restructuring whereby its New Brunswick mineral properties were separated from its other mining properties. On the effective date of November 10, 2005, each issued and outstanding common share of Forest Gate was exchanged for one new Forest Gate common share and 0.1168 of a Forest Gate reorganization share. All of the reorganization shares were transferred by Forest Gate's shareholders to Blue Note (which was at the time a wholly-owned subsidiary of Forest Gate) in exchange for one common share of Blue Note for each reorganization share transferred. Forest Gate then redeemed all of the reorganization shares by transferring to Blue Note its New Brunswick properties and $1,000,000 of working capital. Costs incurred in the Plan of Arrangement of $14,829 were charged to deficit.

The Corporation disposed of the following assets:

	$
New Brunswick properties	**738,229**
Cash	**1,000,000**
Total assets disposed	**1,738,229**
Equity redeemed:	
8,137,183 reorganization shares for gross proceeds	**1,738,229**

Also, under the Plan of Arrangement, Forest Gate transferred to Blue Note the Letter of Intent ("LOI") to acquire from Breakwater Resources Ltd., subject to various conditions, the Caribou and Restigouche Mines located near Bathurst, New Brunswick.

Effective 2005, the Company signed an option agreement with Majescor Resources Inc., to earn up to a 55% undivided recorded and beneficial interest in Majescor's Portage property located north of Quebec's Otish Mountains. Under the terms of the agreement, Forest Gate must invest $5 million over five years to earn a 50% working interest and can earn an additional 5% by funding a 200-tonne bulk sample from a kimberlite body. The Company had to invest $500,000 on claim renewals and exploration by November 1, 2005, and has to invest $800,000 by November 1, 2006, $1,000,000 by November 1, 2007, $1,200,000 by November 1, 2008 and $1,500,000 by November 1, 2009. Majescor will remain operator of the project, until $5 million is invested, but the Company will have a final say on the content and form of the exploration program on Portage. A formal joint venture between the two companies will be entered into when the Company has earned its 50% working interest. As at September 30, 2006, the Company has invested $2,239,277 on the Portage property.

ii) Non-monetary transactions

Non-cash transactions have been incurred in relation to stock-based compensation for the issue of stock options and warrants as partial payment of share issue costs and other services.

10. Loss per share

Due to an expected loss for the entire current year, no incremental shares are included in calculating the dilutive loss per share because the effect would be anti-dilutive.

11. Segmented information

The company has only one reportable segment. All of the company's operations are in one geographic location, Canada, and relate to mining exploration.

12. Related party transactions

Some of the Corporation’s officers are also shareholders of the Corporation, as well as officers and shareholders of the former subsidiary company. Transactions with the former subsidiary company and with these officers were carried out in the normal course of business and measured at the exchange amount, that is, the amount established and agreed upon by the parties.

During the quarter ended September 30, 2006, the Corporation had the following related party transactions:

(a) *Operations*

The Corporation incurred $23,406 of consulting fees and professional services with officers. For the nine month period ended September 30, 2006, the Corporation incurred $33,128 as consulting fees and professional services with officers. Of this amount, an amount of $2,256 is included in mining properties and deferred exploration costs, $4,937 consists of financing costs and the balance consists of professional and consulting fees. As at September 30, 2006 an amount payable of $11,395 relating to these fees, were included in accounts payable and accrued liabilities (June 30, 2006 - nil).

Interest income	**1,284**	-	**27,709**	-

13. Tax losses and other expenses to carry forward

The Corporation has exploration costs, operating losses and other costs which are being carried forward and which can reduce future taxable income. The related potential future tax reduction is not recorded in these financial statements. The unrecorded future income tax deductions are as follows:

	$
Share issue expenses	**1,041,000**
Exploration and claim costs - net book value in excess of tax value (tax value is reduced by renouncements filed at year-end)	**-**
Total amounts for which a potential tax benefit is not recorded	**1,041,000**

...continued

13. Tax losses and other expenses to carry forward (continued)

The 2006 future income tax liability takes into account the effect of tax deduction renouncements made in favour of investors, relating to exploration expenses in connection with the flow-through investment of $3,050,000 (see note 14) filed in March 2006 but effective December 31, 2005. As required in EIC-146, the effect of this renouncement is to be recognized in the year the renouncement is filed with the tax authorities. The liability is offset by the following losses recognized in the financial statements:

Operating losses and expiry dates	$
2007	**36,000**
2008	**156,000**
2009	**170,000**
2010	**391,000**
2014	**288,000**
2015	**1,484,000**
Total losses recognized	**2,525,000**

The future income tax liability does not take into account the effect of tax deduction renouncements made in favour of investors, relating to exploration expenses in connection with the flow-through investment of $713,600 for the quarter ended September 30, 2006 (see note 14) and $1,039,375 for the quarter ended June 30, 2006, that are filed after the balance sheet date but effective December 31, 2006. The effect of this renouncement is to be recognized in the year the renouncement is filed with the tax authorities.

14. Contingent liabilities

a) Environmental

The company's exploration activities are subject to various federal and provincial and state laws and regulations governing the protection of the environment. These laws and regulations are continually changing. Environmental consequences are difficult to identify in terms of results, timetable and impact. The Corporation conducts its operations so as to protect the public health and environment and believes its operations are materially in compliance with all applicable laws and regulations.

b) Flow-through share issues

The company is partially financed through the issuance of flow-through shares, requiring that the company spend the proceeds for qualified mining exploration expenses. Moreover, tax rules regarding flow-through investments set deadlines for carrying out the exploration work, subject to penalties if the conditions are not respected. Although the Company is committed to taking all the necessary measures, refusal of certain expenses by the tax authorities would have a negative tax impact for investors.

In 2005, the Company received $3,050,000 following two flow-through share issues. In March 2006, but effective December 31, 2005, the Corporation renounced all of its tax deductions relating to flow-through investments (see note 13).
